DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 35, 36 and 42-44 are rejected under 35 U.S.C. 102(b) as being anticipated by USP 3,733,178 to Eriksen (herein referred to as “Eriksen”).

Eriksen teaches a chemical coding method wherein coding is accomplished by allotting each container a code or identifying number comprising one or more digits (from zero to nine). The chemical identifiers disclose a number uniquely associated with the container and its contents.

3. Claims 35, 36 and 42-44 are rejected under 35 U.S.C. 102(b) as being anticipated by USP 5,279,967 to Bode (herein referred to as “Bode”).

Bode teaches a liquid identification and tracing system based on the 2^{n-1} binomial system. See col.3, line 25-col. 4, line 20.

Allowable Subject Matter

4. Claims 37, 48 and 49 are allowed.

5. The indicated allowability of claims 35, 36, 37 and 42-44 is withdrawn in view of the newly discovered reference(s) above. Rejections based on the newly cited reference(s) have been applied herein.
